

Waste Management Guidelines for the Assessor

- 1) Add solid waste assessments on any new residential construction. This information will be obtained from the building inspector and then forwarded to the township's assessor to be added to the tax roll.
- 2) Delete solid waste assessment on any demolished residential property. This information will be obtained from the demolition permit that is filed with the building inspector. This information will then be forwarded to the township's assessor to be removed from the tax roll.
- 3) Any other additions or deletions for waste management assessing will be brought before the board by the resident for its approval. Any approved changes by the board will then be forwarded to the assessor for changes to the tax roll.

Approved by the board on September 21, 2011
